Pro Tips

- Measure accurately for consistent result.
- Do not open oven door frequently.
- Cool cake before icing.

Course Calculation Guide

Enter Count	Enter how many students, cakes, practice sets or batches you want to prepare.
Total Qty	Qty per count x Count.
Wastage %	Extra quantity added for mixing, sticking, spilling or practice loss.
Final Buying Qty	Total Qty + wastage. This is the quantity to arrange/buy.
Cost Used	Final Buying Qty / Pack Size x Pack Price.
Optional Revenue	Enter selling amount or course collection to see Profit = Revenue - Total Buying Cost.

Example Calculation for Customer

Item	For 1 count	For 2 counts	With wastage
------	-------------	--------------	--------------

Maida	200 g	400 g	420 g
Sugar	180 g	360 g	378 g
Butter / Oil	120 g	240 g	252 g
Egg / Egg Replacer	3 pcs	6 pcs	6 pcs
