

Ganache Course Notes

Chocolate ganache consistency for filling, coating, dripping and truffles

Practice Type	Ganache batches
Level	Intermediate
Main Outcome	Control ganache thickness for cake use

Ingredient & Tools List

Item	Type	Qty for 1 count	Wastage	Pack Size	Pack Price
Dark Chocolate	Ingredient	200 g	8%	1000 g	Rs. 320
Fresh Cream	Ingredient	120 g	8%	1000 g	Rs. 180
Butter	Ingredient	20 g	5%	500 g	Rs. 250
Piping Bag	Tool	1 pc	0%	1 pc	Rs. 8
Spatula	Reusable Tool	1 pc	0%	1 pc	Rs. 100

Step-by-Step Practice Instructions

1. Chop chocolate finely for even melting.
2. Heat cream gently; do not burn it.
3. Pour warm cream over chocolate and rest briefly.
4. Mix slowly until smooth and glossy.
5. Cool to required consistency for filling, drip or truffle use.

Pro Tips

- Use good chocolate for better shine.
- If ganache is too thin, cool it longer.
- If too thick, warm slightly and mix.

Course Calculation Guide

Enter Count	Enter how many students, cakes, practice sets or batches you want to prepare.
Total Qty	Qty per count x Count.
Wastage %	Extra quantity added for mixing, sticking, spilling or practice loss.
Final Buying Qty	Total Qty + wastage. This is the quantity to arrange/buy.
Cost Used	Final Buying Qty / Pack Size x Pack Price.
Optional Revenue	Enter selling amount or course collection to see Profit = Revenue - Total Buying Cost.

Example Calculation for Customer

Item	For 1 count	For 2 counts	With wastage
Dark Chocolate	200 g	400 g	432 g

Fresh Cream	120 g	240 g	259.20 g
Butter	20 g	40 g	42 g
Piping Bag	1 pc	2 pc	2 pc
