

Icing Cake Course Notes

Cake sponge, cream filling, crumb coat, smoothing and final finish

Practice Type	Cake icing
Level	Beginner to intermediate
Main Outcome	Smooth and finish cakes neatly

Ingredient & Tools List

Item	Type	Qty for 1 count	Wastage	Pack Size	Pack Price
Whipping Cream	Ingredient	350 g	10%	1000 g	Rs. 220
Cake Sponge	Base	1 pc	0%	1 pc	Rs. 120
Sugar Syrup	Ingredient	80 ml	5%	1000 ml	Rs. 70
Cake Board	Packaging	1 pc	0%	1 pc	Rs. 18
Palette Knife	Reusable Tool	1 pc	0%	1 pc	Rs. 110

Step-by-Step Practice Instructions

1. Level the cake sponge and apply sugar syrup.
2. Add filling and stack layers evenly.
3. Apply thin crumb coat and chill.
4. Add final cream layer and smooth with palette knife/scrapper.
5. Decorate and finish with borders or toppings.

Pro Tips

- Cold cake is easier to ice.
- Use turntable for smoother sides.
- Do not overwork cream in warm room.

Course Calculation Guide

Enter Count	Enter how many students, cakes, practice sets or batches you want to prepare.
Total Qty	Qty per count x Count.
Wastage %	Extra quantity added for mixing, sticking, spilling or practice loss.
Final Buying Qty	Total Qty + wastage. This is the quantity to arrange/buy.
Cost Used	Final Buying Qty / Pack Size x Pack Price.
Optional Revenue	Enter selling amount or course collection to see Profit = Revenue - Total Buying Cost.

Example Calculation for Customer

Item	For 1 count	For 2 counts	With wastage
Whipping Cream	350 g	700 g	770 g

Cake Sponge	1 pc	2 pc	2 pc
Sugar Syrup	80 ml	160 ml	168 ml
Cake Board	1 pc	2 pc	2 pc
